

Library Guides

Why won't my library card work at the self-issue machine?

If your library card does not work at the self-issue machine, there could be several reasons for this including the ceiling limit of £25.00 in library charges has been reached; you may have an overdue recalled book on your account which needs to be returned first; you may have reached the limit of the amount of books you are allowed to borrow. Please ask for assistance at the Library Desk during [staffed hours](#).
