

Extenuating Circumstances

What is the deadline for submitting an application?

Please note that whilst your School/College will be flexible in considering your application, you are asked to submit your form as soon as you can. **Whilst your School/College will make every attempt to be flexible, you will be given a final deadline for submission of forms/evidence by your School/College in advance of the University Examination Board.**

Depending on your circumstances, you may be asked to supply supporting evidence. Please do not wait to obtain your evidence before submitting your form to your School/College-please submit your form as soon as you can, and any supporting evidence can be submitted to follow. Your School/College will let you know whether further evidence is required, and what type.
