

Appeals

Is there a deadline for Appealing?

Requests for Appeals cannot be made until after you have been notified of the Examining Board's decision (i.e. after your results have been published on the intranet).

You have up to **3 months** from the date of the Examination Board's decision having been published on the intranet to submit your appeal (unless there is a compelling reason why your appeal is submitted after the three month period).

Given the Covid 19 situation there may be delays in the processing of your appeal due to staff working remotely, staff illness and caring responsibilities. When we receive your appeal, we will aim to provide you with a realistic timescale at that point and update you in the event that the timescale needs to be changed.
