

Renting Privately

As a University managed property tenant, what happens if I am not happy in my room?

If you are considering moving out of the property you are strongly advised to contact Student Accommodation Services. If you want to change rooms within your current property, or move to another University Managed Property, then you should come to Student Accommodation Services and complete a Transfer Request form. If the situation is more serious, you can request to talk to someone in private who will be able to listen and advise you.
