

Undergraduate - After You Apply

I have applied for Medicine or a Health-related degree and my offer mentions that police and health checks will be required. What do I need to do?

All applicants for Medicine and most Health-related degrees (such as Nursing, Midwifery and Audiology) must fulfill GMC and NMC professional requirements for the courses before they can be admitted. Once you have accepted our offer as your first/firm choice the Admissions Office (for the Graduate Entry Medical degree) or the School of Health Science (for health schemes) will write to you asking you to complete Criminal Records Bureau and Health Assessment Forms.
