

# **Undergraduate Application**

## **Can I take a year out before I start my studies/apply for deferred entry?**

We are happy to consider applications for deferred entry for the majority of our courses. The only exceptions are the MBBCH in Medicine and the BMid in Midwifery. This is because of the intense competition in these areas for a very small number of places.

For all other courses you are welcome to apply via UCAS for a course beginning the following year, or can request deferred entry during the application cycle.
