

Blackboard

My students can't see my modules/I see unavailable alongside my modules/How do I make my course available?

When a Blackboard course has the word 'Unavailable' beside it, it means that the course is not available for Students to view.; It is only available for staff who are enrolled on the course as instructors.

From within your module, click on the Customisation link within the Control Panel

Select "Properties" from the list of options:

From this page you can set the course availability at Section 3.

Unique solution ID: #1781
