

# Blackboard

## Browser Requirements

Blackboard officially requires Microsoft Internet Explorer (5.2 on Mac, 5.5 or later on PC), Netscape (7.1 or later), or Apple Safari (1.1 or later, Mac only). Recent versions of Firefox and Mozilla will also work.

See the Blackboard End User Configuration Guide.

Additionally, you must have JavaScript, ActiveX and Cookies enabled within your browser. To use the Blackboard Collaboration Tool the Java Plug-In is required, Please note that the Java Plug-In is NOT the same as Javascript, and can be downloaded freely from Sun.

Anyone can test their browser settings by using this interactive browser checker Please rate the article and leave a comment.; Thank you!

To check if your browser settings are up to scratch, please use our Blackboard Browser Check box on the Help Tab
