

Blackboard

I can't login to Blackboard

Your Blackboard login is associated with your university student computing account, please ensure you are using the correct login details. If you are having problems with your account/password please contact customer services: customerservice@swansea.ac.uk ext 5500.

All students are given a Blackboard account when they register with the University with the same credentials as their main student login. Your username is your 6-digit student number and for new students your password is your default password.

For new staff, Blackboard accounts will automatically be in place within 48 hours of a staff computing account being created.

Unique solution ID: #1802
