

Email

I have finished my course and am now becoming a member of staff. What happens to my student account?

Access to your student account is based on an active student record. Please ensure you save any material you need from your OneDrive for Business Swansea University and email account before the end of your course.

Before you begin your staff post, a new staff account will be created for you. You will not be able to log into your new account until it is ready (usually on your first day of work, as per your contracted start date). Once you have been issued with your new account information, you can [find out more about your staff account here](#).
